BRAY INNOVATE PROGRAM 2023

Bray Innovate
STEM

Bray Innovate
STEM

Aim

The Bray Innovate STEM program aims to extend students in the curriculum in the areas of Science, Design, Art & Technology and Mathematics. Over Years 7-9 students will deepen their knowledge and their ability to “Challenge the Unknown”.

Structure

- Students who take up this opportunity and are accepted into the Bray Innovate STEM program will commit to a 3-year journey from Year 7 to Year 9
- Students will study the Australian Curriculum at an accelerated pace and have the same timetable as other students in their year level
- Students will be provided with the opportunity to learn through real life authentic situations and inquiry-based learning.
- Please note that the student’s continuation in the program is based on program expectations regarding results and behaviour.

Science

- Experimental procedure
- Data collection and analysis
- Sustainability focus
- University mentors and events

Technology

- Coding
- Robotics
- Computational Thinking
- QUT Young Accelerators
- ABCN Challenges

Design / Art

- Design process
- Prototyping
- Art conventions
- Materials use

Mathematics

- Data Analysis
- Mental Computation
- Real World Application

Outcomes

- Deepen students’ knowledge and build their general capabilities in the area of STEM
- Develop 21st Century Skills preparing them to be lifelong learners and to “Challenge the Unknown”
- Inspire a lifelong love of learning
- Opportunities to engage in educational partnerships and excursions with local universities and external agencies
